Large and Medium Scale Manufacturing and Electricity Industries Survey (LMMIS-2012)

Overview	
Type	Enterprise Survey [en/oth]
Identification	ETH-CSA-LMMIS-2012-v1.0
Version	Production Date: 2012-08 Version 1.0: Edited and non anonymized dataset, for internal use only.

Abstract

Manufacturing is the production of goods for use or sale using machines, tools and labour. It refers to a series of human activities, from handicraft to high tech, but is most commonly applied to industrial production, in which raw materials are transformed into new products / finished goods on a large scale. The new products of a manufacturing establishment may be finished in the sense that they are ready for utilization or consumption, or they may be semi finished to become inputs for other establishments engaged in further manufacturing and then sold to wholesalers, retailers, and consumers.

The Manufacturing sector comprises establishments engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. The establishments are often described as plants, factories, or mills and typically use power-driven machines and materials-handling equipment. They include all intermediate processes required for the production and integration of a product's components.

Manufacturing is a wealth-creating sector of an economy, and closely connected with engineering and industrial design and provides important material support for national infrastructure. It involves the mechanical or chemical transformation of materials or substances into new products. It makes products from raw materials by the use of manual labour or machines and is usually carried out systematically with a division of labour. In a more limited sense, manufacturing is the fabrication or assembly of components into finished products on a fairly large scale. Manufacturing Establishments that transform materials or substances into new products by hand or in the worker's home and those engaged in selling to the general public products made on the same premises from which they are sold, such as bakeries, and pastries may also be included in the manufacturing sector. They either process materials themselves or contract with other establishments to process their materials for them.

Manufacturing industry refers to those industries which involve in the manufacturing and processing of items, creation of new commodities or value addition. Manufacturing industries came into being with the occurrence of technological and socio-economic transformations and were widely known as industrial revolution

Manufacturing takes turns and twists under different types of economic systems. In a free market economy, manufacturing is directed toward the mass production of products for sale to consumers at a profit with some degree of government regulation. In a collective economy, manufacturing is often directed by the state to supply a centrally planned economy. The twists and turns that manufacturing navigates necessitate statistical measures.

Since manufacturing is often thought of as the heart and soul of a country's economy and is critical in employing a huge part of the labour force and producing materials of strategic importance, and labour, capital, raw materials, emerging markets, and globalization are matters of concern to manufacturing industries in particular and governments in general, statistics collected on manufacturing industries are, therefore, indispensable for policy making, planning, business running, researches, and other purposes. The provision of such reliable data is realized by employing standard procedures of data collection of which definitions are a part.

With this code of statistics in mind, and for the purpose of this survey, according to International Standard Industrial Classification (ISIC Revision-3.1), manufacturing is defined here as "the physical or chemical transformation of materials or components into new products, whether the work is performed by power-driven machines or by hand, whether it is done in a factory or in the worker's home, and whether the products are sold at wholesale or retail. The assembly of the component parts of manufactured products is also considered as a manufacturing activity." The Central Statistical Agency (CSA) has been providing statistical information on the country's manufacturing and electricity industries since 1976 (1968 E.C.)

annually, to alert policy interventionists on the changes taking place in the sector. As part of this mission, this 35th survey on manufacturing and electricity industries for 2010/11 (2003 E.C) was conducted in 2012 and the results are presented in this bulletin. The survey is the principal source of facts about the structure and function of the manufacturing industries in Ethiopia.

This bulletin has six parts: - Part I, deals with the introduction and objectives of the survey. Part II gives an overview of the survey methodology, data collection and processing. Part III presents summary of selected survey results. Part IV offers statistical tables of the survey for the year 2003 E.F.Y (2010/11). Part V portrays time series data on Large and Medium Scale Manufacturing Industries and various ratios for a five year period i.e. 1999-2003 E.F.Y. (2006/07 - 2010/11). Finally part VI demonstrates the activities and performance of the Electricity Industry for the same five year period. Finally, the survey questionnaire is attached as an appendix.

Kind of Data	Sample survey data [ssd]
Unit of Analysis	Enterprises/ Industries which engaged 10 persons and more and used power-driven machinery.

Scope & Coverage

Scope

Manufacturing comprises establishments engaged in the mechanical, physical, or chemical transformation of materials, substances, or components into new products. The assembling of component parts of manufactured products is also considered manufacturing. However, the scope of manufacturing industries in this survey is limited to those establishments which engage ten persons and more and use power-driven machinery and covers both public and private industries in all regions of the country, where establishments in scope of the survey are found. As to electricity data, the survey covered only the electricity supplied by the Ethiopian Electric Power Corporation.

The range of data items that the manufacturing and electricity industries survey comprises are number of proprietors / enterprises involved in manufacturing, employment, income obtained, volume and value of production and inputs, wages and salaries paid by the establishments, paid-up capital, costs of production, value added, distribution of manufacturing industries across the country, investment in manufacturing, and others in the sector. Manufacturing industries/enterprises which engaged ten persons and more and used power-driven machinery were entirely enumerated all over the country and data on the enterprises acquired.

Countries	Ethiopia
------------------	----------

Geographic Coverage

Covers both public and private industries in all regions of the country, where establishments in scope of the survey are found. As to electricity data, the survey covered only the electricity supplied by the Ethiopian Electric Power Corporation.

Universe

The universe of the large and medium scale manufacturing survey is confined to those establishments which engaged 10 persons and above and use power-driven machines and covers both public and private industries in all Regions of the country.

Data Collection

Data Collection Mode	Face-to-face [f2f]
Data Collection Notes	

Training of field staff:-

The execution of a survey and quality of data acquired from the survey highly depend on the type of training given to the enumerators and supervisors and the consequent understanding of the tasks to be performed and the standard procedures to be followed by the enumerators and supervisors in the survey undertaking. The quality and completeness of data are ensured when the training meets its objective of producing responsible and fervent enumerators and supervisors.

In light of this point, thorough training was given to the field staff. The training which took place at the Head Quarters of CSA and lasted 7 days targeted staff from the Head Office, statisticians, senior field supervisors, and enumerators from Branch Statistical Offices. In the training, the field staff was given detailed classroom instruction on interviewing procedures, how to collect, edit and code data, and verify them, etc. The training also included demonstrations and classroom exercise to reinforce their understanding of concepts, definitions, and theories discussed in the classroom with regard to interviewing method, data collection and authentication and other related activities.

Questionnaires

The questionnaire contains the following sections/ items:

Item 1.1. Address of the establishments: This section has variables that identify the questionnaire uniquely. The variables are; Killil, Zone, Wereda, Town, Higher, Kebele, House no, Year, ISIC, Establishment no, Telephone no and P.O.Box codes or numbers.

Item 1.2. Address of Head Office if Separated From Factory: In this section information about factory head office is collected (if the factory is separated from the head office). The variables used to collect the information are; Killil, Zone, Wereda, Town, Higher, Kebele, House no, Telephone no and P.O.Box.

Item 2. Basic Information About The Establishment: This section has questions related to basic information about the establishment.

Item 3.1. Number of Persons Engaged: This section has variables (questions) that used to collect establishment's employees number by employees occupation.

Item 3.2. Number of Persons Engaged by Educational Status: This section has variables (questions) that used to collect establishment's employees number by their educational status.

Item 3.3. Number of Persons Engaged by Age Group: Contains variables that used to collect information about employees number by employees age group.

Item 3.4. Wages and Salaries and Other Employee Benefits Paid: This section has variables related to wages and other employees benefits by employee occupation.

Item 3.5. Number of Permanent Employees by Basic Salary Group: This section has variables related to salary groups by sex of employees

Item 4.1. Products and By-products: This section has questions related to product produced, produced quantity and sales.

Item 4.2. Service and Other Receipts: Contains questions related to income from different source other than selling the products.

Item 5. Value of Stocks: Contains questions that related to information about materials in the stock.

Item 6.1. Cost and Quantity of Raw Materials, Parts and Containers Used: This section has questions related to principal raw materials, raw material type, quantity, value and source (local or imported).

Item 6.2. Other Industrial Costs: This sections has questions related to other industrial costs including cost of energy and other expenses.

Item 6.3. Other Non-industrial Expenses: Contains questions related to non-industrial expenses like

license fee, advertising, stationary, etc.

Item 6.4. Taxes Paid: This section has questions related to taxes like indirect tax and income tax.

7Large and Medium Manufacturing and Electricity Industries Survey 200

Item 7. Fixed Assets and Investment: This section has questions related to fixed assets and investment on fixed assests and working capital.

Item 8.1. Annual Production at Full Capacity: This section has questions about quantity and value of products if the establishment uses its full capacity.

Item 8.2. Estimated Value and Quantity of Raw Materials Needed, at Full Capacity: This section has questions about the estimate of quantity and value of raw materials that needed to function at full capacity.

Item 8.3. The three major problems that prevented the establishment from operating at full capacity.

Item 8.4. The three major problems that are facing the establishment at present.

Data Collector(s)	Central Statistical Agency (CSA) , Ministry of Finance and Economic Development
--------------------------	---

Supervision

A total of 150 enumerators, 50 field supervisors, and 25 statisticians were involved in the data collection where on the average one supervisor was assigned to five manufacturing establishments for supervision of data collection.

An enumerator was assigned to five manufacturing establishments which were drawn from the Large and Medium Scale Manufacturing Industries directory and information on the industries was elicited.

Data Processing & Appraisal

Data Editing

Editing, Coding and Verification:-

Statistical data editing plays an important role in ensuring the quality of the collected survey data. It minimizes the effects of errors introduced while collecting data in the field, hence the need for data editing, coding and verification. Although coding and editing are done by the enumerators and supervisors in the field, respectively, verification of this task is also done at the Head Office comprehensively. An editing, coding and verification instruction manual was prepared and reproduced for this purpose. Then 30 editors-coders and verifiers were trained for two days in editing, coding and verification using the aforementioned manual as a reference and teaching aid. The completed questionnaires were edited, coded and later verified on a 100 % basis before the questionnaires were passed over to the data entry unit. The editing, coding and verification exercise of all questionnaires took 30 days.

Other Processing

Data Entry, Cleaning and Tabulation:-

Before data entry, the Business Statistics Directorate of the CSA prepared edit specification for the survey for use on personal computers for data consistency checking purposes. The data on the edited and coded questionnaires were then entered into personal computers and checked and cleaned for consistency purposes using the edit specification prepared earlier for this purpose. The data entry operation involved about 20 data encoders and took 30 days to finish the job. Finally, summarization of the data was done on personal computers to produce statistical tables as per the tabulation plan.

Accessibility

Access Authority	Central Statistical Agency (Ministry of Finance and Economic Development) , http://www.csa.gov.et , csa@ethion.et
-------------------------	--

Contact(s)	Data Administrator (Central Statistical Agency) , https://www.csa.gov.et , data@csa.gov.et
<p><u>Access Conditions</u></p> <p>The Central Statistical Agency (CSA) is committed to achieving excellence in the provision of timely, reliable and affordable official statistics for informed decision making in order to maximize the welfare of all Ethiopians. This is achieved through the collection and analysis of censuses, surveys and the use of administrative data as well as the dissemination a range of statistical products and providing assistance and services to users.</p> <p>A microdata dissemination policy is established by CSA to address the conditions and the manner in which anonymized microdata files may be released to users for research purposes. It also strives to identify the different levels of anonymization for different categories of data use. This policy is available at CSA website (www.csa.gov.et <http://www.csa.gov.et>).</p> <p>CSA will release microdata files for use by researchers for scientific research purposes when: The Director General is satisfied that all reasonable steps have been taken to prevent the identification of individual respondents The release of the data will substantially enhance the analytic value of the data that have been collected For all but purely public files, researchers disclose the nature and objectives of their intended research, It can be demonstrated that there are no credible alternative sources for these data, and The researchers have signed an appropriate undertaking.</p> <p>Terms and conditions of use of public data files are the following: The data and other materials provided by CSA will not be redistributed or sold to other individuals, institutions, or organizations without the written agreement of CSA. The data will be used for statistical and scientific research purposes only. They will be used solely for reporting of aggregated information, and not for investigation of specific individuals or organizations. No attempt will be made to re-identify respondents, and no use will be made of the identity of any person or establishment discovered inadvertently. Any such discovery would immediately be reported to the CSA. No attempt will be made to produce links among datasets provided by CSA, or among data from the CSA and other datasets that could identify individuals or organizations. Any books, articles, conference papers, theses, dissertations, reports, or other publications that employ data obtained from CSA will cite the source of data in accordance with the Citation Requirement provided with each dataset. An electronic copy of all reports and publications based on the requested data will be sent to CSA. The original collector of the data, CSA, and the relevant funding agencies bear no responsibility for use of the data or for interpretations or inferences based upon such uses.</p> <p>Cost Recovery Policy: It is the policy of CSA to encourage broad use of its products by making them affordable for users. Accordingly, CSA attempts to ensure that the costs of creating anonymized microdata files are built-in to the survey budget. At the same time, CSA attempts to recover costs associated with the provisions of special services that benefit only a specific group. Information on the price of each dataset is available at CSA website (www.csa.gov.et <http://www.csa.gov.et>).</p> <p><u>Citation Requirements</u></p> <p>The following statement must be used as citation: "Central Statistical Agency of Ethiopia (CSA).Large And Medium Scale Manufacturing and Electricity Industries Survey (LMSMEIS 2012) version 1.0 -August 2012"</p>	

Rights & Disclaimer	
<p><u>Disclaimer</u></p> <p>The user of the data acknowledges that the original collector of the data, the authorized distributor of the data, and the relevant funding agency bear no responsibility for use of the data or for interpretations or inferences based upon such uses.</p>

Variables Description

Dataset contains 282 variable(s)

File : Annual investment by type and source (part72) for (2011-2012)2004 E.F.Y

ID01: Region code

Information	[Type= discrete] [Format=numeric] [Range= 1-15] [Missing=*]
Statistics [NW/ W]	[Valid=6668 /-] [Invalid=0 /-]
Literal question	Region code

Value	Label	Cases	Percentage
1	TIGRAY	535	8.0%
2	AFAR	32	0.5%
3	AMHARA	907	13.6%
4	OROMIA	1781	26.7%
5	OMALIE	64	1.0%
6	BENSHANGUL	12	0.2%
7	S.N.N.P.R.	834	12.5%
12	GAMBELA	3	0.0%
13	HARARI	73	1.1%
14	ADDIS ABABA	2255	33.8%
15	DIRE DAWA	172	2.6%

Warning: these figures indicate the number of cases found in the data file. They cannot be interpreted as summary statistics of the population of interest.

ID02: Zone

Information	[Type= continuous] [Format=numeric] [Range= 1-99] [Missing=*]
Statistics [NW/ W]	[Valid=6668 /-] [Invalid=0 /-] [Mean=8.585 /-] [StdDev=13.517 /-]

ID03: Wereda

Information	[Type= continuous] [Format=numeric] [Range= 1-999] [Missing=*]
Statistics [NW/ W]	[Valid=6668 /-] [Invalid=0 /-] [Mean=30.993 /-] [StdDev=151.926 /-]

ID04: Town

Information	[Type= continuous] [Format=numeric] [Range= 1-82] [Missing=*]
Statistics [NW/ W]	[Valid=6603 /-] [Invalid=65 /-] [Mean=1.418 /-] [StdDev=4.312 /-]

Literal question	Local raw materials quantity

p61c7: Local raw materials value

Information	[Type= continuous] [Format=numeric] [Range= 0-412766665] [Missing=*]
Statistics [NW/ W]	[Valid=10010 /-] [Invalid=3703 /-] [Mean=3836813.571 /-] [StdDev=18175940.883 /-]
Literal question	Local raw materials value

p61c8: Imported raw materials quantity

Information	[Type= continuous] [Format=numeric] [Range= 0-29579745] [Missing=*]
Statistics [NW/ W]	[Valid=3001 /-] [Invalid=10712 /-] [Mean=180904.611 /-] [StdDev=972393.437 /-]
Literal question	Imported raw materials quantity

p61c9: Imported raw materials value

Information	[Type= continuous] [Format=numeric] [Range= 0-1374372803] [Missing=*]
Statistics [NW/ W]	[Valid=5342 /-] [Invalid=8371 /-] [Mean=13493838.393 /-] [StdDev=84328976.007 /-]
Literal question	Imported raw materials value

p61c10: Quantity of total raw materials

Information	[Type= continuous] [Format=numeric] [Range= 0-137617374] [Missing=*]
Statistics [NW/ W]	[Valid=9314 /-] [Invalid=4399 /-] [Mean=138001.264 /-] [StdDev=1676509.895 /-]
Literal question	Quantity of total raw materials

p61c11: Value of total raw materials

Information	[Type= continuous] [Format=numeric] [Range= 0-1385406802] [Missing=*]
Statistics [NW/ W]	[Valid=13612 /-] [Invalid=101 /-] [Mean=8156787.632 /-] [StdDev=56215486.489 /-]
Literal question	Value of total raw materials

File : Cost and quantity of raw materials, parts and containers used (part61) for (2011-2012)2004 E.F.Y

p61c12: Raw material at full capacity

Information	[Type= continuous] [Format=numeric] [Range= 0-6131028000] [Missing=*]
Statistics [NW/ W]	[Valid=13353 /-] [Invalid=360 /-] [Mean=12822498.466 /-] [StdDev=109888748.338 /-]
Literal question	Raw material at full capacity

File : Number of permanent employees by basic salary group (part33) for (2011-2012)2004 E.F.Y

ID01: Region code
