## **Preface**

*The Ministry of Finance and Economic Cooperation (MoFEC) of the Federal Democratic Republic of Ethiopia is given the mandate, by Financial Administration Proclamation No.648/2009, to maintain comprehensive and detailed records of the public debt. 'Public Sector Debt Statistical Bulletin' is a statistical report prepared by the Debt Management Directorate of MoFEC as per this mandate.*

*The major objective of publishing this Bulletin is to provide the public at large with the relevant information and data regarding external and domestic debt position of the country. However, it does not encompass any analysis, as the aim is to give the user the liberty of using the data when carrying out its own research.*

*The Bulletin is structured as follows: Part I covers general information and accounting principles including the coverage, methodology, classification, source, revision policy, fiscal year and frequency and time lag of publishing the Bulletin. Part II and Part III contain statistical tables and figures, respectively. Finally, Part IV gives the standard definitions of some concepts and terminologies used in public debt management, which is believed to give the reader a better understanding and avoid misapprehension of the figures.*

## **GENERAL INFORMATION & ACCOUNTING PRINCIPLES**

# PART I

## GENERAL INFORMATION & ACCOUNTING PRINCIPLES

### 1. COVERAGE

*'Public Sector Debt Statistical Bulletin'* provides information on the public debt including:

- (i) *the central government external debt,*
- (ii) *the government-guaranteed external debt,*
- (iii) *the non-guaranteed external debt,*
- (iv) *the central government domestic debt, and*
- (v) *the government-guaranteed domestic debt.*

The central government external debt refers to all external loans contracted between external creditors and MoFEC; while the government-guaranteed external debt comprises of loans and suppliers credits contracted by public enterprises, mainly the Ethiopian Electric Power (EEP), Ethiopian Electric Utility (EEU), Ethiopian Sugar Corporation (ESC), Ethiopian Railways Corporation (ERC), Ethiopian Shipping Lines (ESL) and guaranteed by MoFEC as well as the state owned bank- the Commercial Bank of Ethiopia (CBE). The non-guaranteed external debt, on the other hand, includes loans contracted by public enterprises, mainly the Ethiopian Airlines (EAL) and Ethio-Telecom (former ETC), without government or government owned bank guarantee. Domestic debt covers the debt of the central government in forms of government bonds, treasury bills and direct advance from the central bank. In future editions consideration will be given to extending the coverage to on-lent loans, as well as major debt sustainability indicators of the country.

### 2. METHODOLOGY

**2.1 Database:** The Debt Management Directorate (DMD) of MoFEC uses Debt Management and Financial Analysis System (DMFAS) of UNCTAD to record detail loan information and produce aggregated data and reports for the public sector debt.

**2.2 Converting Debt Data to a Common Currency:** To produce summary tables, the debt data has to be converted into a common currency, usually the US dollar or ETB, as follows:

- Stock figures: to convert stock figures into US dollars or ETB, end period exchange rate is used.
- Flow figures: to convert flow figures into US dollars or ETB, exchange rate as day of transaction is used.

**2.3 Treatment of Arrears (Debt under negotiations for Debt Relief Comparable to HIPC Terms ) :** As the bilateral debt reorganization negotiations with some of the

non-Paris Club and commercial creditors have not yet been finalized, the government has been accumulating principal and interest arrears and the amount is included in the total outstanding debt.

**2.4 Treatment of Debt Reorganization:** Ethiopia has benefited from Paris Club debt reorganizations, HIPC Initiative, MDRI as well as bilateral debt reduction agreements with non-Paris Club and commercial creditors. Specially, in relation with the implementation of the HIPC Initiative and usage of the HIPC funds, a special bank account has been opened at the National Bank of Ethiopia, where the savings from the debt service due could be deposited until it is channeled to the central treasury account.

### **3. CLASSIFICATIONS**

The classification of the debt data used in this bulletin mostly complies with the international standards indicated in the ‘External Debt Statistics: Guide for Compilers and Users’, with some customization to own use.

### **4. SOURCES**

**4.1 Debt Data:** The primary source of information for the debt statistics is the debt database administered by the Debt Management Directorate (DMD) of the Ministry of Finance and Economic Cooperation using Debt Management and Financial Analysis System (DMFAS) of UNCTAD.

**4.2 Exchange Rate:** The exchange rates used for compiling debt data are obtained from the National Bank of Ethiopia (Daily Transaction Exchange Rates).

### **5. REVISION METHOD**

Debt data indicated in the very last period of the observation period usually are subject to changes and, therefore, are labeled as ‘P’ to indicate that they are provisional. In particular, disbursement documents are sometimes received after two to three months lag and the database has to be updated when documents are received. This leads to changes in figures for disbursements and outstanding debts; and subsequent editions would come up with revised figures, labeled as ‘R’.

### **6. FISCAL YEAR**

Even though the Ethiopian fiscal year runs from July 8 to next July 7, the fiscal year covered in the Bulletin is from July 1 to June 30. This is mainly because the reports submitted to various international organization covers this period and it is necessary that the figures tally with standard publications.

### **7. FREQUENCY & TIME LAG**

This Statistical Bulletin is published quarterly with a time lag of one quarter.
